

# International Opportunity in Peru!

Work in teams with Peruvian engineering students to design and install a fog catcher/water purification system for use in rural Peruvian cities.

Learn more about this short-term study abroad project [in this video](#).

For CEE and CBE seniors, earn credit toward your degree (senior design)!

Some financial support is available!

South Dakota Mines and Universidad Peruana de Ciencias Aplicadas (UPC-Peru) invite you to apply for this unique experience to develop engineered solutions to worldwide issues.

In late summer 2023, teams begin working in-person and virtually through the fall semester, followed by travel to Peru in late 2023. CEE, CBE, and other engineering disciplines are welcome to apply!

More info: visit Dr. Dixon, Dr. Stone, or Suzi Aadland, Ivanhoe International Office.

Apply now! <https://sdsmt.presence.io/form/advanced-design-project-adp-peru>
