

Know about NSF GRFP

Book the date:
October 19,
2023
5:00 – 7:00 PM
CBEC 2208
SD Mines

American Society of Microbiology Chapter:
SD Bioindustry Accelerator & Innovation Hub

Applying for graduate funding can be challenging! To help you through, **SD Mines ASM chapter** is pleased to bring to you the workshop to help you prepare for the NSF GRFP!

Since 1952, GRFP is the country's oldest fellowship program that directly supports graduate students in various STEM (Science, Technology, Engineering, and Mathematics) fields including social science and STEM education.

How does GRFP help careers?

- ✚ Freedom to conduct your own research at any accredited U.S. institution
- ✚ Up to 3 years of Financial support
- ✚ Yearly stipend of \$34,000 + additional cost allowance of up to \$12,000
- ✚ Honorable Mention to meritorious applicants who do not receive Fellowship offers.

We'll cover:

- Overview of the GRFP, including fellowship benefits, student eligibility, application requirements, and application process
- Writing about one's personal statement
- How to articulate intellectual merit and broader impacts of your research
- Crafting an effective graduate research proposal/essay

Post workshop: 2 students will be rewarded by ASM membership. Support for interactive sessions to review and revise their application documents will be available to all the attendees.

Workshop is open to undergraduates and first year graduate students. Students who are not applying this year, but may in the future are also encouraged to attend so that they have ample time to prepare a strong application in subsequent years.
